Missionary and Pastoral Experience

- 1987 – 2005 Missionary with WorldVenture (formerly CBInternational) in France
- 1995 – 2005 Church Planting Pastor of the Evangelical Protestant Church of Bussy St Georges, France. I was the founding pastor of this church near Disneyland Paris which became a multi-ethnic community representing about 20 nationalities. Major accomplishments included starting an initial group, a community children's program, a regular worship service with Sunday school, a junior high group, a high school group, a college group, small group Bible studies, and a board which now leads the church.
- 1995 – 1998 Missionary Pastor of the Evangelical Baptist Church of Fontainebleau and its Region, Veneux-les-Sablons, France. I primarily taught adults and directed the youth group as I helped this church move beyond missionary dependence.
- 1988 – 1995 Church Planting Pastor of the Evangelical Protestant Church of Champs sur Marne, France. I was the founding pastor of this church which is now one of the largest in its region.
- 1984 – 1987 Youth Worker and Director at Covenant Baptist Church, Englewood, CO.
- 1983 – 1984 Director of a church planting project in Lennox, CA.

Engineering

- 1987 - 1988 Member of Technical Staff, Electrical Engineer
Hughes Aircraft Company, El Segundo, CA
I conducted research on the susceptibility to electro-static discharge of electronic components in satellites and interplanetary probes. I also modeled worst-case scenarios of in-space component failure and supervised several technicians.
- 1984 Member of Technical Staff, Electrical Engineer
Hughes Aircraft Company, El Segundo, CA
I created a computer model of magnetic fields entering cruise missiles and conducted a failure analysis of an in-orbit CMOS component.
- 1981 - 1983 Student Engineer
Hughes Aircraft Company, El Segundo, CA
I designed and troubleshot tests for digital and analog circuit boards during the manufacturing process.
- 1980 Student Engineer
Hughes Aircraft Company, El Segundo, CA
I conducted research to find the cause of polyimide printed wiring board delamination during the manufacturing of the Thematic Mapper, the camera onboard the satellites Landsat IV and V, which photographed the earth for Google Maps until 2012. Once the cause was found, I designed a process to prevent the delamination from occurring.
